

The
WORKSHOP
OWEN SOUND
A CENTRE FOR THE ADVANCEMENT OF CRAFT

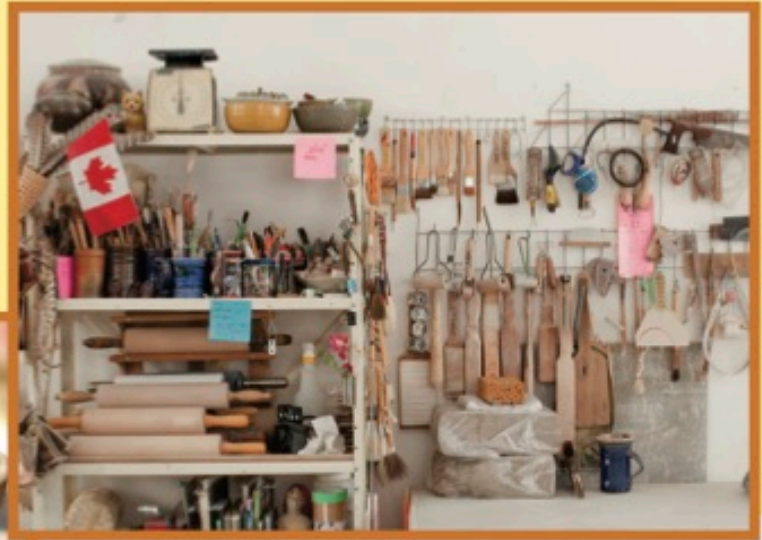

The Workshop is a community initiative undertaken by the Owen Sound Artists Co-Operative to bring an arts incubator with the emphasis on fine craft skills to Owen Sound. The facility will offer dynamic, hands-on training, professional development and studio space.

The Owen Sound Artists Co-operative has been a thriving collective for 24 years. Entirely self-sustaining, the 45 members represent a wealth of knowledge and experience. The Workshop project answers a demand for arts instruction and skills development in Grey and Bruce Counties, leading to a greater participation in the arts.

COMMUNITY BUILDING OPPORTUNITIES

Please join us in creating this arts production space on main street in Owen Sound. This capital campaign will contribute to setting up and equipping this quality studio space. We need your support!
